
Firefighter-Medic Job Description

1306.1 FIREFIGHTER-MEDIC JOB DESCRIPTION FIREFIGHTER/EMT OR PARAMEDIC, 12/12/02-04/15/14

The Firefighter is responsible for responding to incidents and performing the appropriate level of care for personal injuries or illnesses and firefighting duties. The Firefighter shall be able to perform these operations under both emergency and non-emergency conditions, within the policies and procedures set by the District. It is the intent of the District that any other paid personnel below the rank of Assistant Chief will have no residency limitations. The Firefighter is under the general supervision of the Company Officer, Lieutenant or in his/her absence the Battalion Chief. During emergency incidents the Firefighter is under the general supervision of the Incident Commander.

EXAMPLES OF ESSENTIAL FUNCTIONS:

Essential Functions may include, but are not limited to, the following:

Responds to fire alarms and participates in fire extinguishment, rescue, and fire investigation using firefighting tools and equipment such as axes, pry bars, pike poles, power saws, ladders, portable extinguishers, and two-way radios.

Performs hose operations such as coupling and uncoupling hoses, attaching hoses appliances, advancing hose lines, and directing streams into fire in order to control and extinguish fires. Performs salvage and overhaul operations such as identifying strategies to protect property by using salvage covers and smoke fans, locating smoldering fires, removing property to protect it from damage, removing excess water, assessing damaged structures for safety and performing cleanup as necessary.

Rescues individuals in danger from fire, vehicle accidents, industrial accidents and other situation requiring extraction.

Frees individuals from machines and equipment, collapsed structures, earth cave-ins and electrical hazards using extrication and forcible entry equipment in a way that minimizes further injury.

Drives firefighting apparatus to emergency site; locates the hydrants and operates pumps at the proper pressure; evaluates adequacy of water system and availability of water supply.

Responds to incidents involving toxic/hazardous waste materials, assesses risk, clears area of non-essential personnel, uses required personal protection gear, contains spills, controls run-off and ignition sources.

Responds to medical emergencies; provides basic and intermediate life support to the sick and injured; completes written reports on the condition of patients and emergency medical aid given.

Inspects, cleans and services various firefighting equipment and apparatus and hydrants; performs routine and preventive maintenance on equipment as necessary; assists in maintaining

Firefighter-Medic Job Description

clean and orderly conditions in and about the fire station. Participates in inspections of public and commercial buildings for fire prevention and target hazard identification.

Completes all training necessary to fulfill fire districts requirements and ensure professional development.

Provides non-emergency assistance to public such as; conducting State mandated fire drills; company inspections of public and commercial buildings; and fire station visits.

Obtains and records medical data about patient as required by state, county, and local laws.

Paramedic

Responds to medical emergency, rescue and fire calls to provide advanced basic life support to the sick and injured, and to assist in fire extinguishment. Provides advance emergency pre-hospital care to individuals in cardiac arrest and severe shock by intubation, I.V. administration, drug administration, reading and interpreting cardiac rhythm strips (12-leads), and defibrillation.

Inspects medical supplies and equipment daily to ensure equipment is in proper working order; medical supplies used are replaced, and medical equipment is functioning properly.

Keeps a log of the use and replacement of all controlled substances maintained on apparatus as required by law.

Maintains paramedic certification by attending training classes and seminars; participates in reevaluations of practical skills (4 quarterly competencies); and tests to meet advanced life support standards of state and local agencies.

KNOWLEDGE, SKILLS, AND ABILITIES:

- Thorough knowledge of basic fire prevention and suppression practices and techniques; fire ground and rescue safety techniques; hand and power tools used in fire suppression; emergency rescue techniques and equipment; basic life support practices and techniques; hazardous materials for first responders; metric system; building construction as it relates to fire suppression; International Fire Code as it applies to company inspections; Nixa Fire Protection District rules, policy, regulations, and Standard Operating Procedures (SOPs).
- Ability to read and understand fire training manuals; NFPD Protocols and Standards; Departmental SOPs; rules and regulations; iPad and Windows based computer operating systems; and maps.
- Ability to recall information learned; learn and apply fire code provisions; identify and preserve evidence of fire origins; understand and apply physical and mechanical principles related to fire suppression and emergency rescue; use common hand and power tools; climb ladders in excess of 75 feet in length; think and act quickly and effectively in emergency situations; understand and follow verbal and written directions; work effectively and cooperatively with others in a co-ed paramilitary team setting; meet appropriate physical standards established by the District.
