staff on performance, training, and personal development needs; inspects records and daily logs; inspects district facilities to ensure proper safety practices.

Oversees the training and development of assigned company personnel to meet the goals and objectives of individuals and the overall goals of the department.

With supervision of the Fire Inspector, directs and participates in inspection activities and pre-planning for a variety of facilities and buildings to ensure compliance with laws, codes, and regulations related to fire safety.

Prepares reports on fires, traffic accidents, emergency medical calls and other responses; works closely with the public to explain or coordinate prevention programs.

Monitor developments relevant to the fire service and develops recommendations to enhance the department's overall effectiveness and performance.

Prepares and maintains a wide variety of correspondence, records, files and reports related to the activities of an assigned company, in addition to other assigned areas of responsibility.

Participates in the development of departmental policies, goals, objectives, programs, training, and performance standards.

Compiles information on all activities during shift, including emergency and public assistance calls; maintains personnel, training, and other required station records; prepares special and routine reports.

Responds to fire and other emergency calls; makes necessary decisions in emergency situations with regard to the deployment of firefighters and equipment, fire suppression activities, emergency medical, and rescue procedures.

Directs the maintenance and repair of fire equipment, apparatus, hydrants, and station; inspects station, personnel, and equipment for compliance with departmental standards and safety requirements; ensures adequate inventory of cleaning, maintenance, and other supplies for the station; assists in determining equipment needs.

May perform other duties as assigned.

### *Paramedic*

Responds to medical emergency, rescue and fire calls to provide advanced life support to the sick and injured, and to assist in fire extinguishment.

Provides advance emergency pre-hospital care to individuals in cardiac arrest and severe shock by intubation, I.V. administration, drug administration, reading and interpreting cardiac rhythm strips (12-leads), and defibrillation.

Inspects medical supplies and equipment daily to ensure equipment is in proper working order; medical supplies used are replaced, and medical equipment is functioning properly

Keeps a log of the use and replacement of all controlled substances maintained on apparatus as required by law.
